

Bryan, TX Author Publishes Novel

In This World War II-Set Suspense Novel an Actor Finds Real Life Danger in his Latest Role - Doubling for the British Prime Minister

The Churchill Equation, a new book by G. R. Ording, has been released by Dorrance Publishing Co., Inc.

When James Fisher, a part-time actor and entertainer, is recruited by the British Intelligence Service MI-5, he has to give the performance of his career. Fisher bears a striking resemblance to the Prime Minister of England, Winston Churchill. As Fisher sets about the dangerous task of impersonating Churchill, he is captured—all part of an elaborate plan to confuse and deceive the Germans with false information concerning the upcoming invasion of France. But, plans don't always come about as intended, a point Fisher and Churchill soon come to realize.

About the Author

G. R. Ording is the author of several adventure books, including *Criss-Cross*, *The Omega Solution*, *Command Target*, and *In the Shadow of the Fox*. Through his writing, he has established himself as an author of suspense, intrigue, and nonstop action.

Ording enjoys traveling and has done so extensively, travelling throughout the United States, Europe, and the Far East, experiencing many different cultures. He is fluent in German, has a working knowledge of Spanish and Japanese, and has studied World War II history for over 35 years, specializing in the European campaign. When he is not travelling, he resides in Texas, where he continues to write. His hobbies include fishing and other outdoor activities.

The Churchill Equation is a 150-page paperback with a retail price of \$13.00. The ISBN is 978-1-4809-5661-2. It was published by Dorrance Publishing Co., Inc of Pittsburgh, Pennsylvania.
