

Chapel Hill, NC Author Publishes Book on The Human Race

This Book Provides a Resolution of Creationist and Evolutionist Theories

Genesis Too, a new book by Rob Ransone, has been released by Dorrance Publishing Co., Inc.

Genesis Too addresses such sensitive issues as: Where did that first particle come from that resulted in the Big Bang and what was it? Why are creationist and evolutionist theories of the Universe both right? Why is there Free Will? Why is there evil in the world? Is God really omnipotent? Was Jesus God's only son? Is there a heaven or a hell? Why are Islamic terrorists not following the teachings of Muhammad? Why does the US Government only back scoundrels in other countries? Why is Johannes Gutenberg the most important individual who ever lived? Of the American, French, and Russian revolutions, why is the French Revolution the most important? What were the three worst decisions made during World War II? What were the two worst decisions made by US presidents? Why did all 22 US intelligence agencies fail to prevent 9/11, even though the preparations were in plain sight? If we meet aliens from other worlds, will we be the colonists or the Indians? What are the ethics of changing the human genome?

About the Author
