

RoseDog Books

Japanese Author Publishes Book on Immunotherapy

This Book is an English Translation of a Study of Immunotherapy for Malignant Tumors

Immunotherapy for Malignant Tumors, a new book by Hajime Jozuka M.D, has been released by RoseDog Books.

There is no fiction in this book. At the end of World War II, the Nazis troops were trying to occupy Hungary. Without missing this opportunity, the watching Soviet troops went to aid the Hungarian citizens. The Soviet Union became a benefactor of Hungarian citizens. Since then, Hungary has been under Stalin's tyranny and abuse. The Hungarian citizens stood up in search of liberation from the Soviet Union in 1956. For 30 years, it was the Hungarian citizens under the control of the Soviet Union, but their power to seek the peace succeeded in reforming the Soviet Union. It became a country of 97% Catholics and became the world's best nation to seek peace.

About the Author

While Hajime Jozuka M.D. is a psychiatrist, he is also a doctor who specializes in oncology and sexual science. Aside from clinical practice, he is part of the anti-war movement, opening anti-war painting exhibition and musical concerts. He visited Hungary several times and there is something to watch for the research coverage of events in 1956. In oncology, he administered SSRI, a depressive medicine, to help end-stage cancer patients, saving lives that are supposed to be lost. He aids in painting therapy and play therapy, translating this result into English, German and Japanese, and sending it to each country for free.

Immunotherapy for Malignant Tumors is a 258-page paperback with a retail price of \$44.00. The ISBN is 978-1-6442-6833-9. It was published by RoseDog Books of Pittsburgh, Pennsylvania.
