

**Lake Worth, FL Author Publishes Sci-Fi Novel**

**In This Futuristic Novel a Man Finds out He Might be the Savior of the Universe**

*Luxers' Multiverse*, a new book by John Mayer Charmant, has been released by Dorrance Publishing Co., Inc.

In the year 2090, the world is a much different place. The traditional borders between countries have dissolved, leaving only a handful of large, competitive regions. Solar energy dominates, capitalizing on the increased radiation that penetrates the atmosphere due to global warming. Flying cars fill the skies and houses are carved from solid gemstones. It is into this strange and distant future that Adnex Courageux is born.

Born to Genus and Dora Courageux, Adnex appears at first to be a normal, happy child, but great beings beyond the realm of human understanding soon take an interest in the peculiarly intelligent boy. As an adult, his mastery of technology changes the path of human history, but his true potential still lies untapped. Will he be the savior of humanity or does he represent the next step in our evolution, destined to leave us behind to fade from history?
