

San Francisco, CA Author Publishes Book on Stone Artifacts

This Book Explains the Greater Meaning behind Stone Artifacts in Turkey

Snakes, Birds and Dreams: Gobekli Tepe and Caduceus, a new book by Toru Nakamura, PhD, has been released by Dorrance Publishing Co., Inc.

An international economist, Toru Nakamura, PhD has served in consulting and executive roles advising many private and public organizations around the world. Sharing a wide-ranging view is necessary to the future of our troubled world. However, too many social scientists have become increasingly specialized, paying little attention to what other disciplines are discovering and are losing a humanist perspective. In the process, they ignore the imagination and the importance of virtues like love or trust to bind us together.

As the twenty-first century began, Dr. Nakamura began to visit some ruins of the world. He was awestruck at the prehistoric ruins called Göbekli Tepe, which was unearthed in the mid-1990s in southeastern Turkey. Later, Dr. Nakamura learned that the Greek symbol of the caduceus, a wand topped with wings and two entwined snakes, likely originated at this remarkable prehistoric site. There, as the last Ice Age was ending, the human imagination that led to the birth of civilization burst out.
